

Children with reported allergies/medication use will wear a specific-coloured wristband to identify allergy/medication type and time of dosage while in our care. An allergy form is completed at the time of sign in to ensure the camp staff have the most current emergency contact information.

**** Medication must not be stored with personal belongings (i.e. backpacks, lunch bags)

Drug	Prescription #	Dose	Time(s)	Signature

PLEASE NOTE: The camp staff will monitor but cannot administer medication. We can store the medication in a designated area and remind your child to take it according to written instructions. Staff are not responsible for “missed doses” but will do their best to avoid this situation.

Medication (including Epi-pens) must be submitted to our office in its original prescribed bottle with your child’s name on it.

Anaphylaxis management and the use of epinephrine auto-injectors (Epi-pen or Twinject) is a shared responsibility. Practicing emergency drills with your child results in effective emergency response in the case of a reaction.

Campers must be mindful of their allergies. Campers should:

1. Carry at least one epinephrine auto-injector (Epi-pen or Twinject) as age appropriate
2. Wear medical identification (Medic Alert bracelet)
3. Inform staff if he/she suspects a reaction is happening
4. Ensure that asthma is well controlled and managed coming into the environment (indoor/outdoor play)

In the case of a camper experiencing a severe, potentially life-threatening allergic reaction, staff will administer the epinephrine auto-injector and call 911. For EMS needs, please complete the following.
