

TOP 10

WHAT YOU NEED TO KNOW TO RUN FRESH FOR KIDS IN YOUR SCHOOL

1. BC Agriculture in the Classroom Foundation (BCAITC) suggests that your school have a food receiver with a FOODSAFE Level 1 Certificate.
2. If not served right away, refrigerate product upon its arrival at the school. It is advisable that product be eaten in the week of delivery. You are responsible for moving it to a FOODSAFE location in the school. Remember, unless it needs to ripen, all products must be refrigerated. This is especially important for milk, cheese, yogurt and eggs.
3. Before preparing product for distribution to students:
 - Ensure product has been inspected for quality.
 - Wash and dry your hands.
 - It is recommended to rinse fruits and vegetables prior to consumption – at your discretion.
4. Parent Consent/Permission Forms must be collected at the beginning of the school year for every NEW student participating in the FRESH for KIDS program. Your school is responsible for creating and collecting the forms.
5. Allergies and their management are the responsibility of the school. When placing delivery orders on the school login at the beginning of the school year, be aware of the severity of any allergies, and whether the particular product should be ordered.
6. Delivery dates, product listing, product information sheets and program support information are found on the BCAITC school login portal.
7. If your order has not arrived by 3:00pm on your delivery day, notify the BCAITC office at freshforkids@aitc.ca or 1-866-517-6225
8. Poor Quality Product – If the product is not suitable for consumption, as soon as you notice, take a picture of the product, its case – then report immediately, with pictures, to freshforkids@aitc.ca.
9. After each delivery, complete your product Log Sheets and submit online via your school login. The Log Sheets can be found in the program Delivery Schedule section at the right of the product list.
10. 4 weeks advance notice is required for any cancellations and/or adjustments to orders.
