

# A Slice of Soil

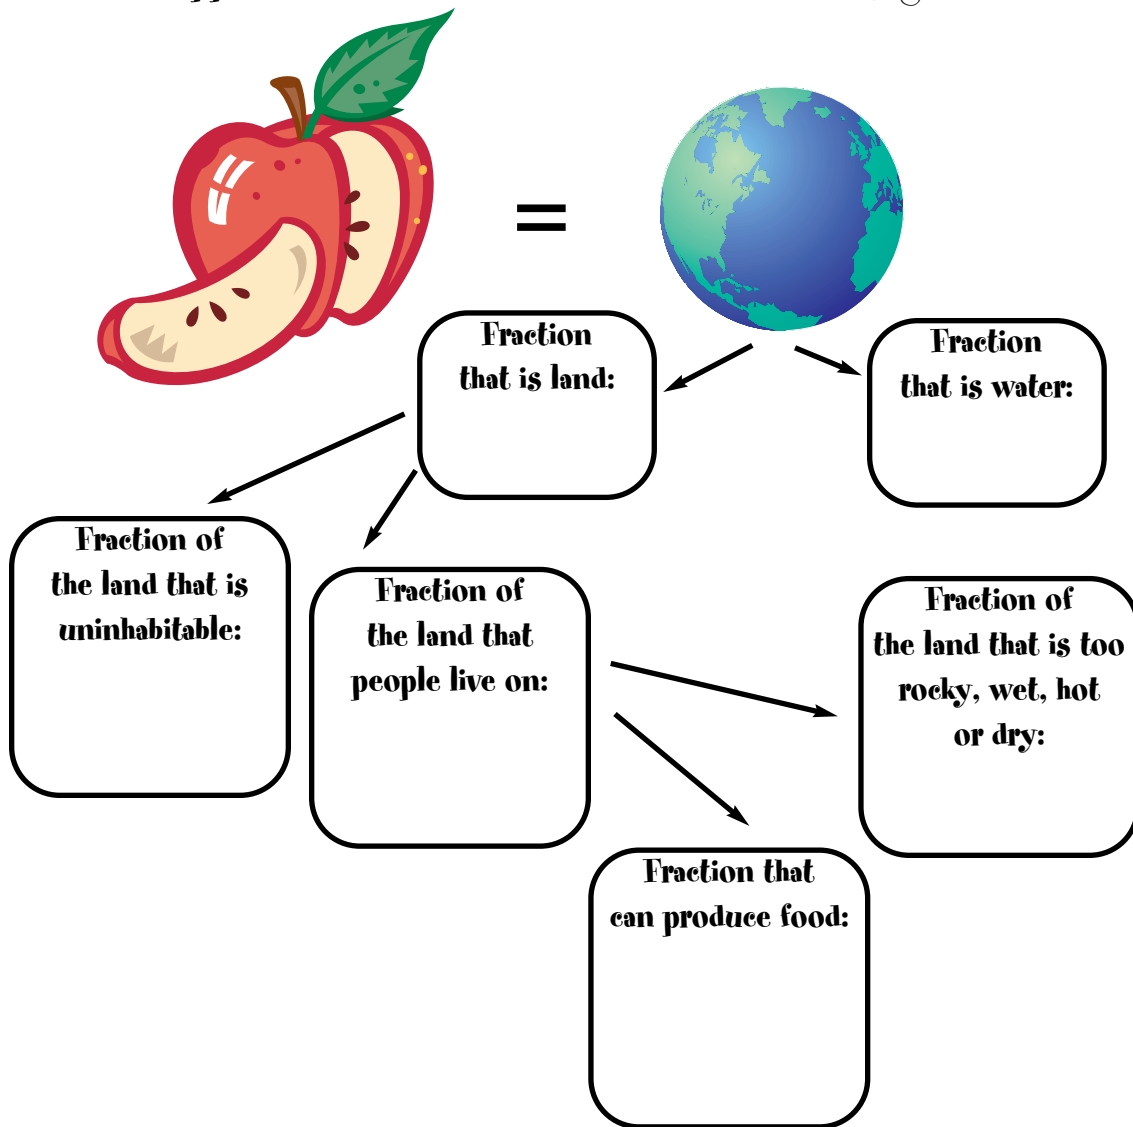

## Estimate:

How much of earth's surface can be used to grow food?

Circle your answer.  $\frac{1}{4}$   $\frac{1}{3}$   $\frac{1}{2}$   $\frac{3}{4}$

## Activity:

Imagine an apple represents the earth. Record your answers below while your teacher uses the apple to demonstrate how much land can really grow food.

How close was your estimate? \_\_\_\_\_

Foodlands in BC are protected by the Agriculture Land Reserve.
